

## EXECUTIVE SUMMARY

---

The Investigations Division of the Office of Inspector General conducted an investigation into the facts surrounding how New Orleans Police Department (NOPD) 8<sup>th</sup> District Commander Edwin Hosli obtained the “Detail” to manage the review of traffic camera violation images, also known as the red light cameras.

The investigation concluded that Commander Hosli formed a Limited Liability Company (LLC) called Anytime Solutions through which he managed the aforementioned Detail. This was in violation of NOPD policy. The investigation found that the former Director of Public Works, Robert Mendoza, violated City policy by improperly expanding the Affiliated Computer Services (ACS) contract.
